## Sweet Strengthens Sales Team with the Addition of New International Sales Engineer

**Springfield, Ohio, USA – October 3, 2011** Sweet Manufacturing Company is pleased to welcome Marycruz Guillen as its new International Sales Engineer. Her responsibilities will include providing customers worldwide with technical assistance for project layout, design and equipment specifications. She will also be an important part of the Sweet Sales team's commitment to extraordinary customer service.

Marycruz is an established Mechanical Engineer with multiple years of experience in the industrial, automotive and petrochemical markets, most recently as Manufacturing Buyer Engineer for a prominent worldwide auto manufacturer. She is bilingual in Spanish and English and has extensive work experience in Latin America. Marycruz has a Bachelor of Science Degree in Mechanical Engineering from Los Andes University in Venezuela. Additionally, she has specialized training in AutoCAD, Six Sigma and Global Product Development.

The addition of Marycruz to Sweet's Sales team continues to further the company's commitment to customer satisfaction through both sales and technical expertise and support. For your next material handling project, please contact Marycruz or another member of the Sweet Sales team at [sales@sweetmfg.com](mailto:sales@sweetmfg.com), 937.325.1511 or visit us at [www.sweetmfg.com](http://www.sweetmfg.com).
