ROASTED SOYBEANS REPORT

Report date: 8/28/2001

Sample number: 006407

TO: Agri-Mark Coop
 204 St Rt 58
 Sullivan, OH 44880

ACCOUNT # 172 (0)
 SAMPLED BY: Agri-Mark Coop
 SAMPLED FOR: DAN S.

PRODUCT: rstd beans

RESULTS: Moisture		4.77%
Dry Matter		95.23%
	<u>DRY BASIS:</u>	<u>AS IS:</u>
Crude Protein	42.83%	40.79%
Protein Dispersibility Index		10.47
Urease Activity (pH unit rise)		0.01

U.S. Dairy Forage Research Center, Madison, WI, has established the following table evaluating an optimally heat processed soybean for lactating dairy cattle:

PDI Range-	Greater than 14	13.99 - 11.01	11.00 - 9.00
Interpretation-		Slightly	
	Underheated	Underheated	Optimum
Your Sample-	XX		

In addition to an optimum PDI value, a well heat processed soybean will have an urease activity (pH unit rise) of less than .02
